Grover DeForest appeared to complain about certain unsatisfactory work performed for him by an electrical contractor. The Board explained the limitations of authority in such matters and agreed that the work must be performed to comply with the Electrical Ordinance, but still might not be satisfactory to the customer.

This department cannot interfere in any agreements between the customer and contractor except where said work is below the standards required.

A motion was made by Baker and seconded by Wright, when work performed does not meet the standards set by ordinance and corrections are required, this department must send a letter to the contractor and a copy to the customer, if his address is known, stating the corrections needed and giving a date for completion of corrections, allowing not more than fifteen (15) days from the date of the letter, for corrections to be made. The contractor's license will be temporarily suspended in the event of failure to comply. This motion passed with the provision that action be initiated to request an amendment to the present ordinance covering such action.

The Board recommends the adoption to the ordinance of a new part 11 of Section 23.16 of the Electrical Ordinance.

Adjourned at 9:30 P.M.

Inspectors remained to complete examinations.

Respectfully submitted,

ROLL CALL

Members present—Chairman Robert Garver, J. A. Wright, C. J. Richards and Inspectors Donald E. Deal and Claude E. Edwards.

Donald Spicer and Albert Richmond appeared to request examination for class "A" license.

Request granted and examination started.

Thomas Esch appeared to request Class "T" contractors license. Mr. Esch is presently licensed class "A" journeyman and, as provided by ordinance, is entitled to a contractors license after signing application and payment of fee. Mr. Esch de-

cided, as long as we are nearly at the end of the fiscal year, he will consider waiting and get a 1956 license.

The Board requested the Inspector to send letters to all Electrical Contractors, requesting a complete list of all employees engaged in electrical construction, said list to be in this office before any new licenses can be approved. This was decided after it was learned that several contracotrs have more men working than we have licensed or registered as apprentices. It was also noted that some contractors have several apprentices and no journeyman. We hope to correct this condition and impress the contractors with the importance of complying with the Ordinance as written.

Meeting adjourned at 9:30 P.M.

Inspector Deal stayed to complete the examinations.

Respectfully submitted,

DONALD E. DEAL,
Secretary.
